Mobile EV charging station

EVMOTIONS Delta Wi-Fi EVSE Type2 (3x32A) Mobile EV charging station

Technical specifications

Power source	400V
Dimensions	100 x 6000 x 84 mm
Weight	5 kg

Product description

Electric car EV charger Type2 industrial red with 3 x 32A connector (22kW) + Carrying bag + Wall mount

Key features

- Wi-Fi - Tuya App
- Electric car battery charger
- Gift car carrying case and wall mount!
- IP54 protection level
- Standard battery charger for electric cars with Type2 connection
- LCD display, displays the current charging current, temperature and power consumption
- 1. Mennekes (Type-2)
- 2. CEE 3x32A industrial red (**diameter: 63mm**)
- Cable length: 5 meters
- Number of phases: 3
- Current per phase: 8-10-13-16-20-24-32A (variable)
- Memorizes the current used during the last charge, no need to set it for each charge
- Max. power: 22 kW
- Charging side connector: CEE 3x32A industrial red
- Car side connector: Type 2 - IEC 62196
- The cable has TÜV, CE, UL approvals.
- This charging station has overcurrent protection, overvoltage protection, leakage protection and overheating protection
- This cable can be used to charge electric cars equipped with Type2 connectors at home (as long as there is a CEE 3x32A industrial socket).
- Cable thickness: 5*6 mm² + 1*0.5 mm²
- Works with every Type 2 car. The charging speed is set by the car’s onboard charger: with a three-phase onboard charger the full {KW3} kW is available, with a single-phase one the same unit charges at {KW1} kW – {EVCARS_LINK}.
